PROFILE SUMMARY

I am a Backend Developer with a strong foundation in Python and the Django framework. I have recently completed academic and personal projects focused on backend development, including API creation and database management. I am also familiar with front-end technologies like HTML and CSS, which helps me understand full-stack development more effectively. My technical skill set includes Python, Django, MySQL, HTML, and CSS. I am eager to apply my skills to real-world projects and grow as a professional developer

SKILL

- **Frontend** : html,css
- **Backend** : Python
- **Database** : MySQL, Mongo.DB
- **Softskills** : Teamwork, Problem Solving, Time management
